

病危自動出院說明書

Taichung Veterans General Hospital Wanqiao Branch, VAC,
Executive Yuan, R.O.C.

REGULATIONS FOR DEATH DIAGNOSIS ISSUANCE WHERE THE DECEASED LEFT HOSPITAL UPON CRITICAL CONDITION AS REQUESTED

TO WHOM IT MAY CONCERN (THE PATIENT'S OR BEREAVED
FAMILY MEMBERS):

We can share how you are feeling now and understand how many jobs you are required to do at this moment. As required by Wanqiao City Health Bureau with Letter 09105813, a doctor should not issue a death diagnosis until the inquest coroner completes the examination. We fully understand the local folklore that death should take place at his/her own home. In the event that you want to take the patient back home during the critical moment but before death, we will help you obtain the death diagnosis. Please duly follow the procedures below:

The doctor of this Hospital will issue a general diagnosis

Please turn to the Health Bureau in your precinct

The Health Bureau doctor will conduct examination and then issue the death diagnosis during the office hours.

In case of a non-working day or a time beyond the office hours, please report the case to the police station in your precinct and the prosecutor will conduct examination in response to report and then issue the death

diagnosis.
